OSMANIA UNIVERSITY

Established in 1918, Osmania University is the seventh oldest university in the country. It is one of the premier institutions of higher learning of India epitomizing the national agenda for excellence. It is a multi-faculty, multi-campus, semidispersed and the largest affiliating university with nearly thousand colleges under it. The university has been accredited with “A+” Grade by NAAC in recognition of its overall performance, outstanding achievement, contributions to the advancement of knowledge and potential for excellence.

ABOUT DEPARTMENT OF PHYSICS

The Department of Physics was started, along with the inception of Osmania University, in the year 1918. Presently, the department offers M.Sc (Physics) with the specializations in Electronics & Instrumentation, Materials Science, Solid State Physics, Nano Science, and M.Sc. (Applied Electronics) and PG Diploma in Radiological Physics. The Department of Physics is recognized under UGC-SAP and DST-FIST. The research facilities available in the department include UV spectrometer, DSC, X-ray Diffractimeter, RF sputtering system, Scanning Electron Microscope and B.H loop tracer. The thrust areas of research are Nano Materials during 20-21 March -2020.

Call for Abstracts and Full Papers

The proposed National Conference on Recent Innovations in Nano Materials is intended for university teachers, scientists, research scholars and students. Abstracts and full papers (not exceeding four pages) containing the title, name of the author(s), name of the institution and brief description about research work, typed in double space in MS word format (Font : Times New Roman, size 12) as an email attachment to ncrinm2020@gmail.com should reach on or before 14-03-2020.The accepted papers will be published in International Journal of Research Culture, which is a well reputed peer reviewed journal recognized by UGC having ISSN Number in March 2020 issue. Additional publication charges of Rs. 1000/- per paper has to pay at the time of registration

TOPICS CHOSEN FOR THE CONFERENCE

* Synthesis and characterization of Nanostructured materials/biomaterials
* Nano- magnetic materials *Nano-energy materials
* Fuel cell materials * Drug Delivery
* Energy Storage Techniques / Materials
* Nano-biotechnology in Medicine
* Cancer Prevention, Diagnosis & Treatment
* MultiFerroics-Multifunctional Materials
* Pharmaceutical / Environmental / Agricultural Sciences
