3rd National Conference on Multidisciplinary Recent Trends Research and Innovation-(NCMRTRI-2022)-July,30 2022
Higher Education for rural students was a dream at that time. This dream came true in the year 1967. The leaders of Ranebennur and surrounding villages, with their constant endeavor and efforts, established the “Ranebennur Taluka Education Society under the presidency of Sri.V.K.Sawkar veteran social worker from Maidur in the year 1966. Sri.K B Koliwat at present the Honorable minister for Rural Water supply and Engineering Division of Rural Development Govt. of Karnataka has been advising as Honorary Secretary for the society since 1966. R.T.E.Society’s Arts and Science College came into existence in the year 1967. The College started its academic activities at a small municipal building with a few number of teachers. The College has been recognized under U.G.C. scheme 2f and 12b in the year1982. It has been the philosophy and policy of the society to start vocationally useful courses of study in place of routine courses. With this view the society has introduced the Seed Technology course in the year 1996-97 to cater the need of the seeds growing companies around the Ranebennur town.

Research Culture Society’ is a Government Registered International Scientific Research organization. Society is working for research community at National and International level to impart quality and non-profitable services. Society has successfully organized 100+ conferences, seminars, symposiums and other educational programmes at national and international level in association with different educational institutions.

The Department of Sociology was established in 1967 with undergraduate teaching programme. The Department of Sociology is obligated to fostering critical awareness and a nuanced understanding of contemporary society. Department motivate students to think deeply about what it means to inhabit the world with others, and how these relations affect our selves. At the same time, we understand that our individual and collective modes of inhabitation are constantly changing along with broader historical, social and cultural shifts. As we live through these shifts, we react to them based on our common sense. However, a training in the sociological imagination gives us an understanding of the inter-connection of the different faces of life and living. There is a common feeling among undergraduate students that this subject has less opportunities in present society few practical opportunities for employment after college. We often hear questions like What are you going to do with a sociology degree? The fact is, sociology majors are excellently prepared for entry into many rewarding positions in the work force right out of college, or further graduate training in areas such as law, business, medicine, community planning, architecture, politics, or academia.
Glimpses of ACRSSBH-2021

The conference witnessed immense response with receiving 120 research papers from Across the country, of which 116 research papers were accepted and selected by following Double bloind review process and published UGC care journal. **Smt. Nivedita**, Assistant Professor & Syndicate Member of Karnataka State Akka Mahadevi Women University, Vijapura **Dr. shaukath Azim** Professor of Sociology, Karnataka University, Dharwad. **Dr. R. R. Biradar**, Professor &Member of Karnataka State Planning Board Department of Economics Karnataka University, Dharwad, **Dr. R.
